

**JOSEPH ALOKO**  
**FULL-STACK WEB DEVELOPER**

**Accra, Ghana – West Africa**

**alokojoseph7@gmail.com**

**<https://josephaloko.com>**

**WORK EXPERIENCE**

**Jun 2021—Dec 2021 (Contract)**

**Maviance | Germany: Front-End Developer**

Developed the user interface for a cross-border payment platform ([www.qlipay.de](http://www.qlipay.de)) that connects directly to local utility companies and mobile money across the globe which has enabled thousands of migrants to pay for utility bills, products, and services for their families around the world, in real-time and at a low cost.

**Dec 2020 – Mar 2021**

**Freelance**

Working together with a UI/UX designer, I built a new website for Cocoa Processing Company Ltd., one of the leading manufacturers of chocolates in West Africa.

<https://www.goldentreeghana.com/>. This boosted their brand visibility and awareness. In addition, I helped startups in my neighborhood get their websites up and running at a much lower cost.

**Jul 2019 – Aug 2020**

**Haefele Software | South Africa: Internship**

One year of rigorous internship training, during which I learned about JavaScript, react architecture, building APIs with Node Js, MongoDB, and working in a team. I was able to work on a variety of web applications, ranging from e-commerce to agency websites.

**SOFTWARE PROFICIENCIES**

JavaScript, React Js, Next Js, Node Js, MongoDB, Web-Sockets, Redux, Context, HTML5, CSS3, Styled Components, SASS, Material UI

**SOFT SKILLS**

Empathetic to teammates and always willing to share knowledge. We rise by lifting others.

communicative and always express my ideas when given the opportunity to.

**EDUCATION**

Sep 2014 – Aug 2018

University of Ghana  
Bachelor of Science –  
Accounting, Finance, and  
Mathematics
